Beware of Tender Gums

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound, keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty.

Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay, loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills.

To avoid Pyorrhea, visit your dentist frequently for tooth and gum inspection. And use Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today. If gum-shrinkage has set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.
